The Number of Years to be Purchased

The Value of the Purchase in

The Value of the Purchase in

The Value of the Purchase in

The Value of the Purchase in

The use of the foregoing Table for
the Purchase of Leases, &c.

THE Table consists of five Columns.
The first contains any number of
years that are to be Purchased, from 1
year to 100.

The 2 tells you how many years and
odd Months Purchase, such a Lease is
worth in ready Money, 5 lb. per cent.
being allowed for the Interest of the
Money laid out.

The 3 Column shews, what the same
is worth at 6 lb. per cent. The 4 at 8 lb.
per cent. and the last at 10 lb. per cent.

Example: What is a Lease of 51 years
to come, worth in ready Money, at 5 lb.
per cent. Also.

Look in the first Column for 51 years
and right against it under 5 lb. per cent.
you shall find 18. 3. which shews the
Lease is worth 18 years purchase, and 3
months, which is a quarter of a year.
So that if the Rent were 10 l. a year,
then 18 times 10 l. is 180 l. and the quar-
ter of the year is 2 l. 10 s. in all 182 l. 10 s.
and so much is the Lease worth in ready
Money, at 5 l. per cent. But if the Pur-
chaser would have 6 l. 8 l. or 10 l. profit
for his Money, then let him look under
the respective Columns of 6 l. 8 l. and
10 l. per cent. and he shall have his de-
fire.

A Table Shewing the Price of the
Great Hundred, or 112l. at any
Price from One Farthing the Pound
to Eighteen Pence the Pound, and
the contrary.
